Sungjae Park

sungj10126@gmail.com | rureadyo.github.io

Education

Stanford University Sep. 2026 – Current
Ph.D. in Computer Science

Carnegie Mellon University Sep. 2024 – July. 2026
M.S. in Robotics
Advisor: Shubham Tulsiani

Seoul National University Mar. 2017 – Aug. 2023
B.S. in Mechanical Engineering (Double Major in Mathematics)
GPA: 4.23/4.3, *Summa Cum Laude*
Leave of absence for military service: Apr. 2019 – Feb. 2021

Publications

1. **Sungjae Park**, Shubham Tulsiani. *πR^2: Reactive Real-time Flow Policies.* Preprint, 2026.
2. Yuxuan Kuang, **Sungjae Park**, Katerina Fragkiadaki†, Shubham Tulsiani†. *Dex4D: Task-Agnostic Point Track Policy for Sim-to-Real Dexterous Manipulation.* Preprint, 2026.
3. Yanbo Xu*, Yu Wu*, **Sungjae Park**, Zhizhou Zhou, Shubham Tulsiani. *Temporal Score Rescaling for Temperature Sampling in Diffusion and Flow Models.* ICML, 2026.
4. **Sungjae Park**, Homanga Bharadhwaj, Shubham Tulsiani. *DemoDiffusion: One-Shot Human Imitation using Pre-trained Diffusion Policy.* ICRA, 2026.
5. **Sungjae Park***, Seungho Lee*, Mingi Choi*, Jiye Lee, Jeonghwan Kim, Jisoo Kim, Hanbyul Joo. *Learning to Transfer Human Hand Skills for Robot Manipulations.* CoRL X-Embodiment Workshop, 2024.
6. DROID Dataset Team, *DROID: A Large-Scale In-the-Wild Robot Manipulation Dataset.* RSS, 2024.
7. Open X-Embodiment Collaboration, *Open X-Embodiment: Robotic Learning Datasets and RT-X Models.* ICRA, 2024.

Research Experience

Physical Perception Lab, Carnegie Mellon University Sep. 2024 – July. 2026
Research Assistant (Advisor: Shubham Tulsiani)

- Developed a manipulation framework for one-shot imitation of human data with pre-trained policy.
- Developed an algorithm for steering sampling distributions in diffusion and flow matching models.

Visual Computing Lab, Seoul National University Feb. 2024 – Aug. 2024
Research Intern (Advisor: Hanbyul Joo)

- Developed a framework for learning dexterous manipulation from human motion capture data.

Scholarships

- **Kwanjeong Overseas Fellowship** (2-year support for M.S. studies, Present)
- Presidential Science Scholarship (Mar. 2021 – Dec. 2022)
- Gangwon-do Future Talent Science Scholarship (Jan. 2018 – Dec. 2022)
- Full academic excellence scholarship (Mar. 2018 – Feb. 2019, Mar. 2021)

Awards

- Outstanding B.S. Thesis Presentation Award, Dec. 2022
- 2nd Place, International Design Contest Robocon, Aug. 2018

Services

Workshop Organizing

- 2nd Workshop on Dexterous Manipulation at CoRL 2025
- Dexterity with Multifingered Hands at ICRA 2026

Reviewer:

- ICML, NeurIPS, ICLR, CoRL, ICRA, RA-L, CVPR

Teaching Experience

- Teaching Assistant — Introduction to Robotics (Spring 2022)
- Undergraduate Tutor — Linear Algebra I (Spring 2021)
- Undergraduate Tutor — Physics 1,2 (Spring 2018, Fall 2018, Spring 2021, Fall 2021)

Skills

Languages: C++, Python, Java, HTML
Libraries/Frameworks: PyTorch, ROS, ROS2, YOLO, SMACH
Modeling: SolidWorks
